Discussion

November 2009 saw warmer than usual temperatures. Each of the November 2009 average temps were higher than the 30 year average temps, each by 5 degrees or more. There were 5 days during the month when the high temperature exceed 60 degrees. On November 9th the high temp reached 72 degrees, missing the record high by only 4 degrees. November 2009 ranks 5th, 3rd and 5th for all Novembers on record for average high temp, low temp and average temp respectively.

November 2009 was a much dryer month than usual. The November 2009 total precip was 1.24" which is over 1.5" lower than the average for November. November 2009 ranks 9th all time for driest Novembers on record. Although it was an usually dry month, DeKalb is still well above normal in total precip for the year with 43.62".
